## Seminar in Microbiology

Monday, February 16, 2015

Salle de séminaire 7172, CMU

**11:30 – 12:30**

### Martin Fraunholz

Lehrstuhl für Mikrobiologie  
Biozentrum der Universität Würzburg

## Phagosomal escape of intracellular *S. aureus*

Martin Fraunholz and his group are studying virulence expression and intracellular survival of *S. aureus*. They are using different methods and applied recently a very powerful high density transposition screening to deconstruct the intracellular life style of this feared pathogen.
